

CTSGNA Support Policy

National SGNA participates with non-profit organizations through information sharing, education, and support, without exchanging monies. CTSGNA may, on occasion, receive a request from non-profit organizations and/or special interest groups. The CTSGNA Board may review the request, on a case-by-case basis, evaluate the appropriateness of the request, and make a decision as budgeting and finances allow.

Procedure:

1. Organizations requesting financial support from CTSGNA are required to complete an application and submit it to the President, describing the relevant issue at hand.
2. Written requests must be submitted before the November Meeting each fiscal year, and donations will be made by December 31.
3. The written request must include the following:
 - a. Reason for requesting financial support from CTSGNA
 - b. Description of how monies will be utilized
4. The issue at hand will be presented at a State Meeting, during which time members may ask questions, and a discussion may follow.
5. Members from the organization are encouraged to be present at State Meeting in order to answer questions as to the purpose/need of the request.
6. Following meeting, the Board will meet to discuss request, and feasibility of providing support.
7. Should the request be approved, the organization will be required to report back on the outcome of the project, or how the funds were utilized.
